

101055 - White  
101056 - Blue  
101057 - Green  
101058 - White/Blue  
10 to 30VDC  
1.8A @ 12VDC, 0.9A @ 24VDC

### SeaBlaze3 Underwater LED Light

Intelligent microprocessor driven circuitry allows for 2 color operation - select white, blue, or color change modes  
Single color models (White, Blue, Green) boast a dazzling light output more intense than competitors costing 3 to 5 times more  
Surface mount - no large through-holes  
No external drive circuit to mount - fewer bilge connections to fail

### MaxIllume 45 Watt LED Flood Light

Flood the decks with light - without running the generator  
Replaces high power 110V quartz halogen tower and flybridge lights - uses 75% less power  
One - piece marine grade aluminum housing is nearly indestructible  
Completely sealed - IP 67 Compliant  
Custom colors available - minimum quantities apply

101031  
10 to 30VDC  
3.7A @ 12VDC, 1.8A @ 24VDC

101013 Blue / 101014 White  
10 to 30VDC  
950mA @ 12VDC, 475mA @ 24VDC

### SeaBlaze 2 Underwater LED Light

15% Brighter than the original SeaBlaze  
Dollars per lumen, simply the best value in underwater lighting  
Surface mount - no large through-holes  
No external drive circuit to mount - fewer bilge connections to fail

### MaxIllume Recessed 30 Watt LED Flood Light

Flood the decks with light - without running the generator  
Replaces high power 110V quartz halogen tower and flybridge lights - uses up to 90% less power  
Durable and attractive marine grade aluminum housing is nearly indestructible  
Completely sealed against water intrusion

101039  
24VDC Only  
1.35A @ 24VDC

101033 White  
101034 Blue  
101035 Red  
10 to 30VDC  
90mA @ 12VDC

### High Intensity "Anywhere" Light

Low current draw (90mA)  
Available in white, red, or blue  
Discreet high output light can be mounted anywhere  
Bright, clean, neutral light from a small attractive package

### Caprera - High Intensity Flood Light

Lumitec's latest 55W halogen replacement flood light  
Bright, even light uses 80% less power than incandescent lights  
Die cast aluminum housing with passivated 316 SS mounting hardware  
Proprietary coating process tested to 3,000 hrs salt spray exposure (ASTM B117)

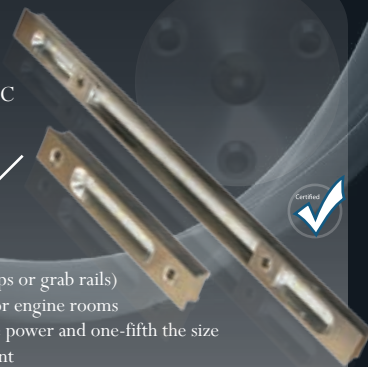

101040  
10 to 30VDC  
900mA @ 12VDC, 450A @ 24VDC

LED Mini Rail Light	LED Rail Light
101015 White	101002 White/Red
101016 Red	101017 White/Blue
101028 Blue	
12VDC	12VDC
400mA @ 12VDC	400mA @ 12VDC

### LED Rail Light & LED Mini Rail Light

Attractive design mounts to flat or curved surfaces (eg T-tops or grab rails)  
Certified Intrinsically Safe / Ignition Protected - perfect for engine rooms  
Bright even light outperforms fluorescents, at one third the power and one-fifth the size  
Sealed for long life and extreme durability - IP 67 Compliant

### Capri - Flush Mount Cockpit Flood Light

Replaces bulky 55W halogen lights  
80% less current draw, and 70% smaller than comparable incandescent lights  
Completely sealed - IP 67 compliant  
Die cast aluminum housing features proprietary coating tested to 3,000 hrs salt spray exposure (ASTM B117)

101009  
10 to 30VDC  
900mA @ 12VDC, 450mA @ 24VDC

Certified Ignition Protected,  
Intrinsically Safe,  
USCG

101006 Flood / 101007 Spreader  
10 to 30VDC  
900mA @ 12VDC, 450mA @ 24VDC

### Abaco - High Intensity LED Flood Light

Perfect replacement for 55W halogen lights, yet draws 80% less power  
Die-cast aluminum housing, powder coated - 3000 hours salt spray tested  
Passivated 316 stainless steel mounting hardware  
Completely sealed - IP 67 compliant

Made in the USA
